# Do's and Don'ts for new Kia owners

---

- Filling up with gas:** Stop filling the tank after the fuel nozzle automatically clicks off. Do not try to 'top up' the tank. Leave some room for the fuel to expand with temperature changes. If you don't, the malfunction indicator lamp may come on.
- Gas cap:** Screw the fuel fill cap back on until it clicks at least three times. If you do not properly tighten the cap, the malfunction indicator lamp may come on.
- Radio code:** Record your radio code in a safe place at home. You will need it to reactivate the radio if the power is cut off (eg: battery goes dead or is replaced). At times, a battery must be disconnected while the vehicle is in for service.
- Manuals:** Don't forget to read your owner's manual and keep it in your vehicle for quick reference.
- Kia UVO:** Kia's 'UVO Intelligence' advanced telematics system evolves the vehicle into a fully connected device providing a variety of remote, safety and security, vehicle management, and location-based services for enhanced convenience and peace of mind. Go to [www.myuvo.ca](http://www.myuvo.ca) to set up your account.
